

# When do we need to inspect your project?

The table below represents the stages of a project where we have identified a risk of non-compliance, every project is different and additional inspections may be required as work proceeds.

Project Type	Foundations (once excavated)	Oversite preparation (prior to concreting)	Below ground drainage	Structural members (prior to covering)	Wall, floor and roof structures, insulation and damp proofing prior plastering	Heating and electrical installations	Completion
Single Storey Extension	✔	✔	✔	○	✔	Covered by Competent Registered Installer and self-certified	✔
Two Storey Extension	✔	✔	✔	○	✔		✔
Loft Conversion	○	○	○	✔	○		✔
Internal alterations	○	○	○	✔	○		✔
Garage Conversions	○	○	○	○	✔		✔
Barn Conversion	○	✔	✔	✔	✔		✔
New Dwelling	✔	✔	✔	✔	✔		✔

## KEY

✔ will normally require notification and inspection

○ may require notification and inspection if relevant to the project

Inspections are normally arranged within 24 hours of notification being made.
